

Newfield
New Jersey
Dec. 1st. 87

Dear Sir

I hope I am not
troubling you too much
in sending these things
but I should very much
like your opinion on
them.

5057 (a) on bark of *Juniperus*
Virginiana - Delaware

5057 (b) which seems to be
the same thing - on bark
of *Salix nigra* - Missouri

I am at a loss whether
to place these in *Dendro-*
dochium or in *Fusarium*
but they seem to me to belong
rather in Sect. III *Fusarium*
(*Leptastrium*)

5058 is on dung of
same (bird)?

Very truly Yours

J. B. Ellis
