

Rafinesque

1525 Green St  
Philada Pa Usa 4/18/1899

Prof P. A. Saccardo,  
Padova, Italy,

Dear Sir,

Your postal relating to picture  
or engraving of Rafinesque was duly recd. It  
was only today that I was able to receive  
any information for you. Up to this time  
we had no picture or likeness of that  
Botanist at the Academy, but this evening  
on the new book table I found a copy of  
Rafinesque's Ichthyologia Adriensis  
(Reprint) which contains his portrait - taken  
from his Analyse de la Nature. The  
entire engraving is about 6 inches x 4 inches.  
The head of Rafinesque is about 1 inch long  
it is placed on a pedestal. Thus

The heavy black - bust + pedestal.

If this would suit your purpose I can  
make a copy and send you a photographic  
print.

Awaiting your pleasure, I remain

Yours Truly

Wm B Stevenson J
