

*Agaricus atropunctus*. Fries Hym  
Eur. p. 212 is certainly not  
Omphalia but Eccilia "lamellis  
incarnato-cinereis" - sporis roseis"  
whatever may be Omphalia  
atropuncta Sacc Syll 1236 it  
is not the species of Fries, or of  
Berkeley, or of Mooke

see Grevillea VII p 75 t 121 f c also  
Journal of Botany t 161 f 13. It is  
a mistake of M. Quelet, wholly an  
error that our Eccilia atropuncta is an  
Omphalia = Hygrophorus fetens Phil
