

UNITED STATES DEPARTMENT OF AGRICULTURE,
DIVISION OF VEGETABLE PATHOLOGY,
WASHINGTON, D. C.,

Nov. 19th, 1890.

Dr. P. A. Saccardo,
Padova, Italy.

Dear Sir,--I have forwarded you No. I of the Journal of Mycology in accordance with your request. I am sorry that you have not received this before as it was certainly mailed you.

Please accept my thanks for directing our attention to Steirochaete malvarum, Br. & Cosp. Miss Southworth agrees with you in saying that it is probably the same as Colletotrichium althaeae. The name probably should be Colletotrichium malvarum (Br. & Cosp.) Southworth. I send you enclosed a Colletotrichium on ^{xii}Braunus ^{and}~~seculissee~~, and should like to know if you consider it the same as Steirochaete graminicola (Ces) Sacc.

Respectfully,

McL.

B. A. Galloway
Chief.
