Dear Sir,

I have much pleasure
in sending with this a
photograph of myself, -
as you wished. I trust
that you will pardon ^{the fact} that
the photograph is an
amateur production, but
I have no other.

I am now collecting

and C. communis on

Tragopogon sp. (Rev. Myc.,
no. 11,
1881 " p. 41.) Rely. Libert

I feel sure that you will
agree with me that one
should ^{personally} verify, as far as
possible, all important
records. If you have
not these three species,
perhaps you can tell me
to whom to apply.

Yours very sincerely,
Ernest C. Salmon.

facts bearing on the
subject of the influence
of the host plant on
parasitic fungi. - and
in connection with this

I should be very greatly
obliged if you could

let me see specimens

of ~~three~~ the three following: -

Microsphaera Lycii on

Lycium ruthenicum (Syll. Fung.)

Erysiphe Martii ^{Wint} on Pedicularis

resupinata (Bull. Soc. Roy. F. Fibr.)

Bot. Belg., xxviii. p. 86 (1889)
