

Dr. P.A.Saccardo,
Padua Italy,

Dear Sir,-

In accordance with your kind suggestion made in reply to Prof. Atkinson last spring, I herewith send to you a part of the copy of the translation of the Analytical Key to Saccardo's Sylloge Fungorum. The printed copy is one which I hastily prepared this fall for laboratory use in one of Professor Atkinson's courses.

In the final copy the Orders will be arranged according to the synopsis of Fungi found in vol. VIII, which will be placed at the beginning of the Key, and each genus will be followed by the reference to its location in the Sylloge.

It is my plan to make a limited edition for use in the laboratory and if it then seems feasible to make a larger edition with such alterations as may be suggested by its use.

Any changes or additions which you may suggest will be regarded of inestimable value by me.

I have the honor to be,

Very respectfully yours,

B. Stoneman,

Cornell University,
