

Madison, Wis., July 8, 1884.

Dear Sir:

As promised last winter, I take pleasure in mailing you about 200 numbers of fungi, many of which, I regret to say, are more scanty in quantity than I could have wished; but I trust that you may find among them some species of interest to you. I shall much prize your opinion on the validity of some of my more doubtful species.

I shall arrive with expectation the two centuries of your Association, which your kindness enough to offer me in exchange. Believe me,

Very truly yours,

Prof. P. A. Saccardo,
Padua, Italy.

Jm. Trelease.
