

Forden Vicarage

Wells pool. 18 June 1878.

My dear Sir.

I am glad to hear you have
my Fasciculus. I have also received
yours safely thank you much for it.
How much money do I now owe you?

Your photograph never came to me,
you offered to exchange yours for
mine. I sent mine to you but you
forgot to return yours. I shall be very
pleased to receive your photograph.

I hope soon to prepare another
Fasciculus, but am very much

engaged in preparing microscopical
slides of Sphagna (Grevillea N° 40
page 151) Mosses, Hepaticae, Fungi
oc, they are much more beautiful
than those you saw.

With kind regards I am dear Sir

Yours faithfully

John E. Vire
