

Singapore
Aug. 11 / 17

My dear Sir,

I am making a first little sending
of Singapore fungi to you — today & for
determinations.

It would be better for you to publish on
these in Italy — but I would be very
glad if you can send to me, as soon
as you have gone over them — a
determination list — names according to
number.

Some of these are of economic importance
and we desire greatly to refer to them by
names, so that we shall greatly appreciate
your kindness in sending in list.

Yours very sincerely

C. J. Baker
