

Kulm, N. Dak., Oct. 11, 1915.

Prof. P. A. Saccardo,
Padova, Italy,

Dear Professor Saccardo: -

With today's mail I send you some specimens of fungi which I should like you to determine for me. I also send you the first five fascicles of Fungi Dakenses. Kindly review these and should there be any you believe doubtfully named kindly report your opinion to me. The following fascicles will be sent to you shortly, which kindly accept with my compliments.

Thanking you for past favors and hoping to hear from you soon again, I remain,

Very truly yours,

J. P. Brucke.
