FROM
E. S. SALMON.

Jan. 15th 1914.

Prof. Saccardo
Padova

Dear Sir,

I am trying to collect information about Bacterial Diseases of Celery (*Sedano - Apium graveolens*) and find that a paper was published by Dr. Ugo Brizi in *Cent. für Bakt.* 1897.

Mr. Salmon advises me to write to you to ask if you can inform me whether any recent work has been done on the subject in Italy and also whether Dr. Brizi is still at the Università di Roma.

Thanking you in anticipation,

I am

Yours truly

H. Wormald.

(Assistant Mycologist)
